If a safety car must be deployed in the first lap, it will pick up the race leader as from T15.

Procedure in case of Safety Car at each and every Marshal Post :

- Stretched Yellow Flag everywhere, except for the post where the incident is occurring (waved yellow flag) and possibly one (1) post ahead.
- Sign SC shown at all posts
- Yellow LED-signs lettering SC.

### **Penalties**

Penalties will be notified by a liaison officer. As from that moment you will have THREE (3) laps to purge your Stop&Go or Drive-Through Penalty under penalty of disqualification of the car.

Stop&Go means you have to stop at BOX 2 and wait for the signal of the flagman to go. Attention : You may not stop at your box as this would result in a new penalty.

Undergoing a Drive-Through Penalty also implies you cannot stop at your box, as a new penalty would be the immediate consequence.

Penalties pronounced in the last thirty (30) minutes of the race will be converted to time penalties.

### **Default behaviour on track**

Slower cars **remain** on the racing line, faster cars **leave** this ideal line to overtake. Use your mirrors.

To defend your position you can change lines once, but do not block systematically !

### **Track Limits**

The track lane is between both (2) white lines.

Two (2) wheels on the curbstones and two (2) wheels on track is allowed.

Two (2) wheels past the curbstones is FORBIDDEN

### **Finish & Podium**

Passed the checkered flag, please slow down progressively, DO NOT OVERTAKE (penalty) and obey the instructions of the marshals.

At the end of the deceleration lap, please drive into the F1 pit lane to join Parc Fermé.

A podium ceremony will take place on the official F1-podium of Spa-Francorchamps.

We wish you a pleasant race. Please always show respect and **fair play**...
